

COMMENT FORM

Public Scoping Meetings

We need your input. Please take a few minutes to provide your comments or questions for the USDA RUS Federal Environmental Impact Statement process and return your completed form today or mail by June 29, 2009. Your comments help in the planning and implementation of the project. **Thank you.**

Completing this form will automatically add you to our mailing list. If you prefer to not be on the mailing list, please check the box below.

☐ I do not wish to be on the project mailing list

Which meeting did you attend? LIA CRESCENT, 6/23/09

Please check the following issues that are important to you for transmission line siting.

- ☒ Project Purpose and Need
- ☒ Visual / Aesthetic resources
- ☒ Proximity to residences
- ☒ Land use (agriculture, residential, recreation)
- ☒ Water resources (floodplains, river crossings)
- ☒ Biological resources (wildlife habitat, raptors)
- ☒ Historic and cultural sites
- ☐ Radio or television interference
- ☒ Noise
- ☒ Health and safety
- ☐ Other: _____

What additional key issues should be addressed when assessing the potential impacts of this project?

I-064-004 | ① Need, ② Access to project for wind generation
I-064-005 |
I-064-006 | ③ ~~Minimize~~ Minimize Upper Miss. Refuge impact -
bury the line at crossing and
do not run the line down the river
corridor

Hampton • Rochester • La Crosse 345 kV Transmission Project

If you own property in one of the proposed corridors, please indicate all the existing uses of your property below:

- ☐ Agriculture ☐ Residential ☐ Conservation Easement
☐ Commercial ☐ Industrial ☐ Other: _____

Please describe any special uses or circumstances on your property that should be considered when assessing the Project. Please indicate the location of your property.

In your opinion, what are the most sensitive resources (biological, cultural, recreational, ect.) in the Project area and why?

I-064-002

I-064-001

*Upper Mississippi Refuge,
Scenic beauty of the ~~area~~ region
especially along the Great River
Road*

I-064-001

Your comment has been noted. Potential impacts to the aesthetic quality of the areas surrounding the transmission line will be addressed in the Draft Environmental Impact Statement.

The Draft Environmental Impact Statement will be available on the RUS website at: <http://www.usda.gov/rus/water/ees/eis.htm>. Comments on the Draft Environmental Impact Statement will be solicited after its publication.

I-064-002

Your comment has been noted. Potential impacts to wildlife will be addressed in the Draft Environmental Impact Statement.

In your opinion, was the project description, purpose, and need for the project adequately explained? If not, what additional information is needed?

I-064-003

This is described as a Minnesota
La Crosse driven project, with no
other purpose. This isn't credible.
The need & ultimate purpose/
goals need to be stated. What
other plans does the project
coordinate with?

Please tell us how to reach you.

Daytime Phone (Optional): _____

Public participation for the Federal, Minnesota, and Wisconsin permitting processes will be ongoing for the Hampton-Rochester-La Crosse 345 kV Transmission Project. If you sign up for the mailing list, you will be notified when opportunities to participate are being planned.

Please plan to continue your involvement in the process and provide your comments. We appreciate your input.

I-064-003

Your comment has been noted. The Draft Environmental Impact Statement will describe, in detail, project purpose and need. The justification document which has been accepted by the RUS is the Alternative Evaluation study which is available at:
<http://www.usda.gov/rus/water/ees/eis.htm>.

I-064-004

Your comment has been noted. The Draft Environmental Impact Statement will describe, in detail, project purpose and need. The justification document which has been accepted by the RUS is the Alternative Evaluation study which is available at:

I-064-005

Your comment has been noted. Due to the transmission grid's interconnected nature as well as to electricity's nature - it's generally difficult to identify a specific source of electricity on the grid. The proposed CapX2020 transmission lines will serve the region's expected growth and help begin to meet Minnesota's Renewable Energy Standard (RES), which requires utilities to deliver 25 percent of their electricity from renewable sources by 2025 (Xcel Energy is mandated to deliver 30 percent by 2020, with 25 percent from wind). Most of that energy comes from wind turbines.

I-064-006

Your comment has been noted. Alternatives to the project will be addressed in the Draft Environmental Impact Statement.
